Education

Bachelor of Computer Science HITEC University Taxila, Pakistan

10/2021 - 08/2025

Experience

Front-end dev Intern at Intelytics.co Islamabad (Remote)

09/2025 - 02/2026

Developed and engineered responsive front-end application modules using React.js and modern JavaScript (ES6+). Collaborated actively in a remote Agile ecosystem, contributing to daily standups, sprint planning, and timeline execution. Translated UI/UX design mockups into pixel-perfect, fully accessible component interfaces. Engaged with technical stakeholders to clarify scope, document functional requirements, and deliver client-focused web solutions.

Projects

- **Academic Portal**

Engineered a full-stack academic management portal featuring distinct role-based dashboards for Student, Teacher, and Admin flows.

Implemented secure user authentication and login gateways with real-time form validation via optimized Regex matching.

- **Netflix Clone using React Native**

Developed a cross-platform mobile clone utilizing React Native to replicate core user authentication and category navigation feeds.

Integrated a third-party TMDB REST API to asynchronously fetch and map media assets, posters, and live metadata configurations.

- **Landing Page for Prime Video using HTML and CSS**

Designed a responsive interface clone using HTML5 semantics and CSS Grid/Flexbox structures.

Implemented mobile-first media query breakpoints to guarantee seamless cross-browser layout presentation.

Skills

- React.js | Next.js | React Native | Redux Toolkit | HTML5, CSS3 | Tailwind CSS
- Git, GitHub | Figma | Vercel | Netlify
- GitHub Copilot | Prompt Engineering | Generative AI (ChatGPT, DALL-E)
- Excel | Google Sheets
